MAYSVILLE, KY., TUESDAY, JULY 29, 1902.

NUMBER 211.

CRASH ON ELEVATED.

A Head-On Collision Causes a Disastrous Wreck In Midair.

TWO PASSENGERS FATALLY HURT.

The Motorman on One of the Trains Is Arrested and the Other Motorman Skips Out.

New York, July 29.—A head-on collision occurred between two trains of the Brooklyn elevated railroad on Adams street which resulted in the derailing of six cars, the wrecking of two and the injury of a number of persons, at least two of them fatally.

The collision took place at a point where the tracks diverge and it is thought to have been caused by a misplaced switch. A train bound to New York from Bath Beach was turning the curve at the junction when it was met by a train from the bridge station and the crash occurred. Godfrey Moore and Henry Moore, of New York, were pinned beneath the wreckage and probably fatally hurt. It was nearly an hour before they were released. Thirteen others were bruised more or less seriously.

Charles Scattuck, motorman of the Bath Beach train was arrested. John Sullivan, the motorman of the other train has disappeared.

Further Research.
Port de France, Island of Martinique, July 29.—Dr. T. A. Jagger of Harvard university, representing the United States geological survey in the West Indies, arrived for the second time at Fort de France on June 24, and has since visited Mont Peice twice. He has also made excursions to the southern end of Martinique and to the warm springs of the interior of the island. Dr. Jagger came directly from St. Vincent. As a result of recent examinations of the crater of Mont Pelee and explorations of the track of devastating blast which destroyed St. Pierre, it appears that there is extraordinary similarity between the eruptions of the Soufriere volcano of St. Vincent and Mont Pelee. The products are the same, both are characterized by the absence of lava and the work of destruction both to inanimate objects and to mankind, was accomplished in much the same way. The destructive effects of the eruption in St. Vincent covered a much more extensive area, but the loss of human life was much less.

Will Camp at Cleveland.
Cleveland, July 29.—A delegation representing the Ancient and Honorable Artillery of Massachusetts arrived here to arrange for the annual outing of that organization, which will be held here, commencing Oct. 13 and continuing for five days thereafter. The organization has about 700 members and it is expected that fully 300 will come to Cleveland in October. The visitors will be the guests of the Cleveland Greys and while here will visit many of the nearby islands and points of interest. In 1896 the organization visited England and was received by Queen Victoria.

Chamberlain Is Ill.
London, July 29.—Colonial Secretary Chamberlain's condition is again giving serious concern to his friends and grave rumors are current. It is said that since Mr. Chamberlain was hurt in a cab accident on July 7, he has had recurring attacks of irregular heart action. The cardiac troubles are so serious that he has been examined by three eminent specialists in heart affections and after a consultation they forbade him to resume work in the house of commons last Thursday as he had proposed to do.

Shot Five Men.
Fresno, Cal., July 29.—At Porterville, James McKinney, an ex-convict, shot five men and escaped into the country. McKinney first shot out the lights of a saloon and tried to shoot the cards out of the hands of a player, wounding the latter slightly. He then went to a livery stable and at the point of a revolver secured a rig. As he was driving off a constable, a deputy and several citizens tried to arrest McKinney. He opened fire, wounding four of the party and escaped.

Jumeau Repulsed.
Port-Au-Prince, Hayti, July 29.—The army under General Jumeau, who supports the candidacy of M. Firmin for the presidency of Hayti, has been repulsed by troops under the command of General Saint-Fox Collin. The gunboat Crete-a-Pierrot, prevented a pursuit of the Jumeau forces and General Collin's troops returned to Port-Au-Prince.

ATTACK EXPECTED.

The Followers of M. Firmin Are Near Cape Haytien.

Cape Haytien, Hayti, July 29.—General Salnave entered Climb and was soon within nine miles of this city, after having defeated the troops under General Nord, the minister of war of the provisional government. The capitulation of Grande Riviere is expected and Cape Haytien probably will be attacked within 12 hours. Foreigners are without protection and are in danger. The United States gunboat Machias, which was ordered to proceed from Colon to this port, has not arrived. Much regret is expressed that no foreign power is represented here by a warship at such a critical moment.

A dispatch from Cape Haytien on July 24 announced that an army from the department of Artibonite in sympathy with M. Firmin was marching on Cape Haytien from three sides. The three divisions were under command of Generals Albert Selvane, Emile Gaspard and Thesse Monisttan. It was feared at that time that the gunboat Crete-a-Pierrot would land troops in support of M. Firmin near Cape Haytien. The United States gunboat Machias sailed from Colon for Cape Haytien on July 23. The Machias arrived here at noon.

To Settle Boer Country.
London, July 29.—The settlement of the country, according to Johannesburg advices is being taken in hand with all possible dispatch, but it can not be expected that progress will be recorded by special landmarks every day or week. The department of state is working at full pressure. The amount of work to be done is enormous and the obstacles are removable only gradually. In the public works department, things are almost at a standstill owing to the difficulty of procuring goods from the coast.

Murders On Train.
Joplin, Mo., July 29.—Four men, two whites and two negroes, are reported to have been shot and killed on a Missouri, Kansas and Texas excursion train at a point in Indian Territory. The negroes are said to have been shot down by the whites, who were in turn shot and killed by a deputy sheriff who was accompanying the excursion. The excursion was run into Joplin from Muskogee and several fights occurred in this city among the passengers before the train departed for the south.

Not Ready to Explain.
London, July 29.—The premier, A. J. Balfour, in the house of commons, in reply to a question in reference to the Atlantic shipping trust, said it was improbable that the government would be in a position to formulate a statement of its attitude toward the trust before the recess of parliament on Aug. 8. If any agreement were to be made with the trust involving the financial arrangement such agreement would be subject to the approval of the house.

Two Yachts.

Washington, July 29.—President Roosevelt will have two yachts at his disposal at Oyster Bay. The beautiful yacht Mayflower, which was fitted up expressly for the president's use, has been at Oyster Bay ever since the president went to Sagamore Hill. On Saturday after Secretary Moody's arrival at Oyster Bay, he wired the department to dispatch the Sylph to the summer home of the president, and she sailed for that place.

A Woman Suicides.
Philadelphia, July 29.—Mrs. Clara M. Andrews, aged 52 years of Brooklyn, committed suicide in a fashionable boarding house at Germantown, by swallowing carbolic acid.

George Andrews, a commercial traveler, is connected with a New York house. Mrs. Andrews was stopping in Germantown during her husband's absence on a business trip from which he has just returned. Mr. Andrews says his wife had been a sufferer from nervous troubles.

Rioting at Paris.

Paris, July 29.—Many persons injured, 10 of them seriously, and hundreds arrested is the result of the street disturbances in which both clerical and anti-clerical demonstrations brought about the closing of unauthorized religious schools were made. There were great crowds on the boulevards throughout the evening in expectation of further rioting. A large procession of students shouting and singing was dispersed by the police.

Magistrates Appointed.

New York, July 29.—Mayor Low appointed Joseph M. Due, Leroy B. Crane and M. Breen as city magistrates for 10 years at a salary of \$7,000 per year, beginning Jan. 6, 1903. Magistrates Due and Crane succeed themselves, while Magistrate Green succeeds Henry A. Brann.

HIS LIFE IS SPARED

Dr. Russel Wilson of Ohio Will Not Be Put to Death in Nicaragua.

OFFICIAL NEWS FROM DONALDSON.

United States Consul at Nicaragua Informs the State Department That President Has Commuted Death Sentence.

Washington, July 29.—The life of Dr. Russell Wilson, of Ohio, who was captured with a revolutionist party in Nicaragua, has been saved through the representations of Minister Corea of that country. A cablegram was received at the state department from Chester Donaldson, United States consul at Managua, Nicaragua, dated the 26th instant, as follows:

"As a courtesy to the United States and sympathy for the mother, the president will commute Russell Wilson's death sentence."

Wilson was one of several Americans who joined a filibustering expedition which landed at Monkey Point, near Bluefields, early in July. Most of the party were captured or killed. Wilson would have been summarily executed but for the intervention of Senator Corea, the Nicaraguan minister here. He secured a stay of proceedings and a guarantee of legal trial. The minister has now induced President Zelaya to commute the death sentence imposed upon Wilson by court-martial. Before the receipt of this message it was not known here that the court-martial had been held. It is presumed that the commutation is to imprisonment for a time and then expulsion from Nicaragua.

Offered "Green Goods."

Columbus, O., July 29.—L. S. Hugentugler of the Nell House cigar stand has received a letter from a "green goods" man. He offered Mr. Hugentugler \$7,000 in "green goods" for \$700 in "real money," and agreed to guarantee that this stuff would be accepted by any bank. The person who sent the letter is apparently a resident of Ulster, Pa. He says he has six \$100 bills, which at the time of the assassination of President McKinley were stolen from the treasury department. They print \$1, \$2 and \$5 notes, and, of course, the money is genuine. By buying this money one is enabled to become rich easily and in a few years be in a position to retire from active work. Mr. King, the owner of the plates, will sell the money in the following sums: Three thousand dollars for \$500; \$7,000 for \$750; \$13,000 for \$1,000, and \$30,000 for \$2,000.

Christian Culture Association.

Laporte, Ind., July 29.—The Christian Culture assembly, a national organization of Baptists, will hold its annual convention this year at Pine Lake, near Laporte. The opening session will consist of readings by Miss Anna M. Philley of Fort Wayne and Florence McMillan of Chicago. On Tuesday Rev. J. E. Conant of Dubuque, Iowa, will speak on the Young People's union sacred literature course, followed by Rev. E. H. Ewett of Elkhart, Ind., on "Growth in Religious Life." In the evening Rev. J. E. Conant will deliver a stereopticon lecture on "The American Alps." On Wednesday evening Professor Ira M. Price of the university of Chicago will speak on "Shusian and the Palace of Esther."

Will Sult Americans.

Rome, July 29.—The death of Cardinal Ledochowski, prefect of the congregation of the propaganda, probably will result in several changes in the high personnel of the congregation. General satisfaction is expressed at the deposition of Mr. Mesezynski, who was ostensibly private secretary to Cardinal Ledochowski, but who was really his deputy, and whose personality was distasteful, especially to many Americans.

Great Damage to Crops.

Hornellsville, N. Y., July 29.—Reports from the surrounding country show that the cloudburst affected nearly 80 square miles of territory. A broad estimate of the damage is \$250,000. The crop loss is enormous. Much stock has been drowned and many buildings have been washed off their foundations. The Erie railroad has got one track open. It will be some days before all the damages to the roadbed are repaired.

Killed by His Wife.

Marshallville, Ga., July 29.—Jeff Dorsey was shot and killed by his wife, the bullet passing through his heart. The woman claims the shooting was done in self defense. There were no witnesses.

A YOUNG PANTHER

Escapes From a Box in Bronx Park, Terrifying Sightseers.

New York, July 29.—After gnawing its way out of a wooden box in Bronx park, a young panther just arrived from Mexico, walked up to a picnic party of women and children, and astonished by their panic, jumped over their heads into a tree and has since led keepers and other hunters a weary chase through Bronx park jungle. The panther is a fine specimen, 18 inches high at the shoulders, five feet long and he weighs 45 pounds. He was shipped from Mexico in a pine box.

The keeper having removed one of the slats and unfastened the animal's collar, left the crate unguarded for a time. The panther lost no time in attacking, with teeth and claws, the soft slats which stood between him and liberty. The park was filled with sightseers when the animal escaped.

Six keepers with shotguns and noose started out to capture the fugitive with directions to shoot only when necessary. About a mile north of the museum a party of 30 children out picnicking saw the panther emerge from a thicket. It ran toward them and they fled. On one occasion he wandered up to a table cloth upon which a luncheon had been spread and quickly devoured the meal. Only fleeting glimpses of the animal were obtained although the hunt was kept up until night.

The park authorities say the panther is not vicious and that it probably will be shot by some one living near the scene.

For the Mississippi.

Washington, July 29.—The Mississippi river commission, having in charge the works of improvement of the river from the mouth of the Ohio to the head of the passes, has submitted its annual report to the chief of engineers. The estimates for the fiscal year 1904 are as follows: Continuing work under the commission, \$2,000,000; protection of banks at Cutherville, \$30,000; harbor at Memphis, \$50,000; harbor at Greenville, Miss., \$25,000; preservation of works at Delta Point, La., \$25,000; harbor at Natchez, Miss., and Vicksburg, La., \$100,000; rectification of Red and Atchafalaya rivers, La., \$30,000; harbor at New Orleans, La., \$300,000. On the first of the present fiscal year a balance of \$2,538,264 was available for improvements of the river. A statement is made showing that since the organization of the commission in 1873 until the present time, the total amount appropriated for that portion of the Mississippi river under the commission has been \$43,572,693.

Woman Murdered in a Saloon.

Chicago, July 29.—Her face black from strangulation and blood flowing from a wound in the side of her head, the body of an unidentified woman, about 32 years old and fashionably garbed, was found in a wine room of Henry O'Hara's saloon near the river. The police soon after arrested James Grant and Edward Goff, said to have been seen in the company of the woman. Two policemen on duty in Wells street were notified by an unknown man that a woman was dead in the saloon. Two officers entered the place, allowing the unknown man to pass on. In a rear room they found the dead woman. Other women and men who were found drinking at tables in the place seemed to be ignorant of the tragedy that had taken place so near.

Failure of Importers.

New York, July 29.—The firm of Cuming & Stockbridge, export and import commission merchants, assigned. Liabilities of the firm are given as in excess of \$500,000, but the assets of the firm will not be known until an examination of the books is made. The firm was mentioned in recent Havana dispatches as having been involved in the failure of B. Duran of that city.

Biscuit Makers Meet.

Cleveland July 29.—Nearly 300 independent biscuit and cracker bakers were present when the annual convention of the American Cracker and Biscuit association was called to order. The convention met in executive session and only members of the association were admitted. Matters concerning the development of the trade were discussed.

Gold For Europe.

New York, July 29.—Gold bars to the amount of \$3,000,000 have been engaged at the assay office for shipment to Europe this week. The names of the shippers have not yet been announced, but it is understood that the principal shipper is a leading bank.

Delarey's Daughter Will Wed.

London, July 29.—General Delarey's daughter is to be married to Mr. Ferrera, the general's secretary, in the Dutch Reformed church at Cape Town.

STRIKERS ARE BLAMED

For the Murder of Forman Landerman In the Anthracite District.

WAS SHOT NEAR HIS HOME BY A MOB.

Although His Face Is Severely Lacerated With Shot It Is Thought He Will Recover From the Injuries.

Parkersburg, W. Va., July 29.—Judge Jackson issued another injunction of the same general character as those for whose violation "Mother" Jones and others were tried. It was issued upon the application of G. Clinton Gardner, receiver for the Flemington Coal company and is directed against 30 strikers and organizers.

Pottsville, Pa., July 29.—Daniel Landerman, foreman at the Kohinoor colliery, Shenandoah, was shot near his home by a crowd of strikers. His face and shoulders are torn with buckshot, but it is thought he will recover. Albert Landerman was also chased and shot and four other non-union men badly beaten.

Warrants Issued.
Wilkesbarre, Pa., July 29.—Warrants were issued for the arrest of a number of striking miners at Nanticoke, who are charged with holding up and assaulting several steam employees of the Susquehanna Coal company, who were on their way to work on Saturday morning. Thus far only one arrest has been made. At strike headquarters President Mitchell was busy receiving and answering telegrams from Indianapolis and United Mine Workers' headquarters in West Virginia. He also discussed the plan of relief with several committees from United Mine Workers that called. The exodus of miners from this region to the bituminous districts continues. Seventy Polish and Slavonic miners left for western Pennsylvania and Ohio.

At Miners' Headquarters.
Indianapolis, July 29.—Secretary Wilson of the Miners said that the anthracite men are being well cared for, although the assessment of the bituminous miners is just beginning to come in. He does not expect the bulk of the first assessment until next week, because most of the miners are paid semi-monthly. The clerical force at headquarters was increased to handle the funds. The miners are making an appeal to the members of the American Federation of Labor, which practically amounts to a direct appeal from the officers of the Federation. The habeas corpus proceedings for the release of the men imprisoned for violating Judge Jackson's injunction are being prepared. No steps will be taken toward impeaching Judge Jackson, Secretary Wilson says, until the habeas corpus cases are disposed of.

With the Miners.
Wilkesbarre, Pa., July 29.—It is understood the rock miners will present a petition to the executive board of the Mine Workers' union requesting permission to return to work. It is said the employment of this class of anthracite miners would not affect the situation. The announcement of the officials of Oxford colliery of their intention to resume operations Aug. 2 is being discussed here, but as yet there is no evidence that that part of the Wyoming operators to take similar action. The opinion prevails throughout the region that there will be no attempt to break the strike before Sept. 1.

Seddon's Views.
Glasgow, July 29.—Premier Seddon of New Zealand, in a speech here, said the colonies had already proved that they love the motherland by sending their sons to fight in South Africa. They wished to go further and give the mother country preference over other nations, but too much attention was being paid to what continental nations might take. What the colonies and Great Britain should do was borne in common cause to meet American competition. Should this be done the result need not be feared, said Mr. Seddon, because the British workmen and manufacturers were unequalled in the whole world.

Cholera Victims in Cairo.

Cairo, Egypt, July 29.—There were 35 new cases of cholera and 38 deaths from the disease in this city. In Moucha 10 new cases and 21 deaths were reported.

Death of Mrs. Meade.

New York, July 29.—Mrs. Mary Meade, who murdered her children, Alice and Mary, at their home in Brooklyn last Saturday, died in the hospital.

THE WEATHER RECORD.

[For the 24 hours ending at 6:30 a. m.]
State of weather Partly cloudy
Highest temperature 97
Lowest temperature 64
Mean temperature 82.6
Wind direction southerly
Precipitation (Inches) rain50
Previously reported for July 1.88
Total for July to date 2.88
July 29, 9:22 a. m.—Partly cloudy to-night and
Wednesday.

Of the surviving members of ten regiments that participated in the Santiago campaign, 2,140 have applied for pensions. It is said Pension Commissioner Ware was astonished when he learned the number. And no wonder. Mr. Ware says he is at a loss to explain.

"ATTORNEY GENERAL KNOX is waiting impatiently the decision in several cases brought by the Department of Justice to test the efficiency of the present anti-trust laws!"—New York Press, (Rep.).

Poor Mr. Knox! We imagine we see him gnashing his teeth in his eagerness to get at the trusts just once, remarks an exchange.

THE PITTSBURG Post says: "The tariff tax on culture and education—and all know what it is on the necessities of life—is illustrated by the fact that Mr. Henry G. Walters, of Baltimore, who has just imported nearly a thousand paintings, statues and miscellaneous art treasures to enrich the famous Walters gallery in that city, will have to pay nearly \$200,000 duties upon his welcome importation. It is largely a tax on the art of antiquity. There is no home competition, and the treasury does not need the revenue. Hence this tariff freak is supremely ridiculous. Mr. Walters may send his purchase back to Europe."

WHILE the Republicans are telling so glibly what they are going to do to the trusts if they only get a chance, a glance at the Congressional Record on the 15th of last February will throw considerable light on the subject as to what may be expected of them. Their bad faith during the Fifty-sixth Congress when they pigeon-holed their own anti-trust bill rather than let it come to a vote is too well-known to need discussion. But even within the present year the Republicans, who are now applauding the President's anti-trust utterances in his Pittsburgh speech, voted directly opposite to their present and past professions. It happened in this way. The permanent census bill was under consideration. Senator DuBois, of Idaho, offered an amendment to the bill providing a remedy for the trusts in direct accord with the recommendations of the President in his message to the Congress. In offering the amendment Mr. DuBois said: "I am not making an indiscriminate attack on the trusts. My amendment simply carries out fully the suggestion of President Roosevelt, which is that the utmost publicity shall be given to the trusts." When the vote was taken on the amendment the Republicans voted against it to a man. Is that the sort of record the Republicans are going before the country with, and "pointing with pride" to? Does any man ever expect relief for his country from the trusts at the hands of a party which to-day votes against their own President and to-morrow applauds those same recommendations, thinking thereby to get some mean political advantage? For twelve long years the Republicans have been telling the country what they were going to do to the trusts. But the unsympathetic cold-hearted type of the Congressional Record is full of words which have not been backed up by deeds. Trust not the men whose tongues incline one way and their deeds another.

The date of Mrs. Prindiville's illustrated lecture on "The Homes of the English Nobility," has been changed from Aug. 9th to Monday, Aug. 11th. The box sheet will be open at Nelson's Friday, Aug. 8th. Speaking of this lecture, the dramatic critic of the Chicago Times-Herald says:

Possessing not only a charming presence, but a beautifully modulated voice and a graceful literary style, Mrs. Prindiville gained control of her audience at once. Her lecture on "The Beautiful Homes of England," a clever review, handsomely illustrated, was the fruit of personal observation during an extended tour, and the judgment with which she selected the salient points of interest indicated the talent of an appreciative observer. The pictures, nearly one hundred in number, were artistic, and served to illustrate the subject in a very interesting and enjoyable fashion. So pleasing a lecture, delivered in such an engaging manner, was not only successful on this occasion, but will certainly be in demand on numerous other occasions in Chicago and elsewhere.

Nightgowns!

There are twenty-two in the lot varying in price from \$1.95 to \$4.50. They are soiled from use in window and store decoration. But they are perfect in cut, sewing, material and design. We tried to sell them at the regular price—you passed them by in favor of their fairer sisters. We tried a small discount in price—the garments were so perfect, justice revolted at a deep cut. Still you would have none of them. Now there is absolutely nothing the matter with these gowns, except the dust and that the best store keeping can't prevent. Many women will not wear a ready-made undergarment until it's laundered, no matter how fresh and spotless. So they can't object to having the purchase "tubbed" and women less extreme will feel compensated for the trouble by the big money saving. We're determined every one of these gowns shall have new owners before the week ends. To simply read of the price reductions may not be impressive, but you'll appreciate its significance if you will only see the—

D. HUNT & SON

SCENTS DANGER IN 1904.

Republican Organ Alarmed Over the Division of the Party.

[Leslie's Weekly.]

It is time to ask, in all seriousness, whether the death of Wm. McKinley marked the apogee of the Republican party. While it is drifting apart on a question of trade with Cuba the Democracy is getting together. While such rock-ribbed Republican States as Vermont, Ohio and Pennsylvania are being torn by clashing factions the Democratic leaders are falling into line in solid ranks and preparing for the contest of 1904.

Is our leadership lost? Less than a year has elapsed since the pitiful death of the lamented McKinley, and we find a third of the Republican membership of the Senate, representing a dozen States, nearly all Republican, in opposition to the administration. And over what? A perplexing tariff question! This is not a new question for the Republican party to handle. It was far more difficult for Wm. McKinley to adjust it for all the country than it is for the present administration to settle it for the little republic of Cuba. Wm. McKinley settled it, as he did every other question in his time that perplexed and tried his party, by conciliating, by harmonizing, by making concessions, and, whenever necessary, by compromising.

Let the President and his advisers take a lesson from the experience of William McKinley and plan for reciprocal trade relations on such a broad basis that no American industry can complain. "The period of exclusiveness is past," as McKinley well said. We must either find new and wider markets abroad or prepare to pay the heavy penalty of over-production—silent workshops, labor unemployed and capital a burden. Such a situation breeds depression and panic.

The ardent protection sentiment of some has been tried by the trust developments of the past few years, and many believe that some of our protected industries should be strong enough by this time to stand alone. The task of the administration is therefore difficult. It is now being put to the crucial test of the highest statesmanship. It must be tactful, resourceful, conscientious, unambitious and always conciliatory. The unfortunate break in the Republican Senate following manifestations of dissatisfaction in the House is not a trifling matter, and the growing unrest of the masses is in marked contrast with the confidence and hope they felt while they followed the banner of William McKinley.

It needs no prophetic eye to realize that the Republican party is facing a crisis. How shall it be met? It is not a question of 1904; it is a question of 1902. Political changes in this country are sometimes very abrupt. The party that enters a Presidential campaign with broken ranks, disorganization and disaffection is beaten before the contest begins.

With the Democracy united and reasserting the most popular of its old-fashioned ideas of a constitutional government and a tariff for revenue only a close and exciting contest becomes inevitable. If—not because of a lack of its own patriotism and principle, but because of overconfidence in its strength and a mistaken belief in the weakness of the enemy—the Republican party should fall by the wayside, where will the historian of our new century politics put the blame?

Lawrence County Republicans gave first instructions for Luther M. Walter for Congress. He is a young lawyer who has just returned from Washington, where he held a position in the Census Bureau for two years. Second instructions were given for Hon. W. H. Cox.

BISHOP MAES

May Be Promoted to the Head of the Catholic University at the National Capital—His Name Frequently Mentioned.

[Cincinnati Times-Star.]

Bishop Maes's name is being prominently mentioned in the Board of Bishops as the next head of the Catholic University at Washington to succeed Bishop Conaty.

Rev. Maes is the Secretary of the Board of Bishops and consequently in the line of promotion.

A prominent pastor recently returned from Rome said that his name is being frequently mentioned and added that the head of the Covington diocese was known as a man of large and varied erudition and would make an energetic and efficient rector.

In late years men have made fortunes out of tailings of gold mines. The mills in which the ore formerly was crushed and the crude process then used allowed a large per centage of the precious metal to escape and that amounted in some cases to a fortune. The stomach is just like a stamp mill in this respect, that when it is not in perfect order it allows the escape and waste of much of the precious nutriment contained in food. That loss when continuous means the loss of man's greatest fortune,—health. Science offers a remedy for this condition in Dr. Pierce's Golden Medical Discovery. It corrects the "weakness" of the stomach, prevents waste and loss of nourishment and puts the stomach and organs of digestion and nutrition into a condition of health which enables them to save and assimilate all the nutriment contained in the food which is eaten. In all cases of constipation the use of Dr. Pierce's Pleasant Pellets will speedily and permanently cure the disease.

Brains behind the article advertised and brains behind the advertising methods are the winning combination.—Mahiu Method.

Commissioner's SALE!

MASON CIRCUIT COURT.

John M. Hunt,
On Petition Ex. Parte, } Equity.

In obedience to a judgment and order of sale of the Mason Circuit Court, rendered in the above mentioned cause at the June term, 1902, I shall,

Saturday, August 2nd, 1902,

at 2 o'clock p. m., on the premises, proceed to sell at public auction, to the highest bidder, on a credit of six, twelve and eighteen months, the following lots:

First—Parcel of ground made up of three pieces.

In Maysville, Mason Co., Ky., the first situated on the corner of Third and Plum streets, south of Third street and running thence with Third street forty-two feet to the northeast corner of Thomas Fristoe's brick house, thence on a line at right angles with Third street and parallel with Plum street, fifty-eight feet to a stake; a line with a right angle, angles with the last mentioned line and Plum street forty-three feet to Plum street; thence along Plum street fifty-eight feet to the beginning.

Second—All that certain lot on Plum street in said city, fronting on said street twenty-nine feet and running back sixty-six feet, both of said lot being the same conveyed by Fredrick M. Wedon to John H. Wilson by deed dated 31st day of March, 1898, and recorded in deed book 67, page 45, in Mason County Clerk's office.

Third—All those certain lots of ground in said city, fronting on Third street, south side, above Plum street, one fronting on Third street twenty-nine feet and running back same width fifty-eight feet, and the one lying above this one and fronting on said street sixteen and a half feet and running back same width 145 feet, being the same lots conveyed to H. Wilson by Fredrick M. Wedon, his executors, by deed dated October 18, 1890, recorded in deed book 68, page 37, in Mason County Clerk's office and described therein as lying immediately back of Kane's lot, the full width of same being 39 feet, more or less, and extending back the same width sixteen and a half feet. The above described property is all now, in one lot and has on it a two-story brick house and other improvements and is the same conveyed to Mary Hunt by John H. Wilson and wife to John Kane by deed dated October 18, 1890, recorded in deed book 68, page 516, in Mason County Clerk's office.

The first described property will be sold as one parcel, and the last described parcel separately.

The purchaser must be prepared to promptly execute bond, with appropriate security, for the purchase price, which bond shall bear legal interest from day of sale until paid.

C. BURGESS TAYLOR,
Master Commissioner.
Thomas R. Phister, Attorney for Petitioners.

"Continuation of Our July Clearing Sale."

The rush is on, and it shows that this is an event which hundreds of discriminating men look to with interest.

This week we continue the sale of the finest Suits in our house, that formerly sold for \$20 and are really worth \$25, for \$15.

Also a remarkable high-value line of Suits that have sold for \$15 and \$18 that we have reduced to \$12.

Special Sale of Flannel and Wool Crash Outing Suits.

Former prices, \$10, \$12 and \$15. This week they go at \$6, \$8 and \$12. All of them made by leading Rochester houses.

Our Negligee Shirts, Underwear and Hosiery share in the general reduction.

Don't forget that we sell Hanan & Son and W. L. Douglas Shoes. They are the best in the world. "Watch next Thursday papers."

D. HECHINGER & CO., THE HOME STORE.

THE BEE HIVE

Is it Warm Enough For You?

You have heard that question asked before and now you can give an affirmative answer. Yet there is some satisfaction in knowing that there are various ways of keeping cool. The soda fountains supply coolness for the "inner" man. We try to look out for the "outside" comforts of woman. The cool lawn dress, the breeze-making Fans, the summer Wrapper and the "Royal" Waists are all strong defiers of the summer heat.

We still are offering our goods at rebuilding prices, and if our advertisements do not attract you our goods surely will.

We still have some of those 79c. "Royal" Waists.

A new line of Lace Beadings just received.

Have you seen the new Ladies' Collars, comfortable and low? All widths in Velvet Ribbons.

Ping Pong Belts 25c., a New York Creation.

Green Veiling, the new craze.

Very popular Polka Dot Lawns 10c.

Oxford Madras 15c. yd.

THE CARPENTERS BEGIN WORK THIS WEEK.

AN OLD CITIZEN GONE.

Death Claims James Wickham at the Age of Eighty-Two Years—Passed Away Monday.

Mr. James Wickham, whose illness was mentioned Monday, died at 3:05 o'clock Monday afternoon. He was stricken last Thursday with an attack of dysentery, and rapidly declined.

Mr. Wickham was born in County Wexford, Ireland, eighty-two years ago, and had been a resident of Maysville about fifty-three years. He was an industrious and kind-hearted man and had many warm friends. His wife survives him.

The funeral will take place Wednesday morning at 9 o'clock at St. Patrick's Church. Burial at Washington.

Cincinnati and Return \$1 Sunday, August 3rd. Via the C. and O.

Sunday, August 3rd, the C. and O. will sell round trip tickets, Maysville to Cincinnati, at rate of \$1. Special train will leave Maysville at 6:36 a. m. Returning leave Fourth street depot at 7:30 p. m.

Ashland Independent: "One of the oldest men perhaps in the State is Mr. Davy Wade, who resides just at the edge of this county. Should he live to the 21st of next August he will be 115 years of age. He was born in North Carolina, but has spent most of his years in this State. He was the first man who lighted and operated a charcoal furnace in Greenup County."

River News.

The Gould and Tacoma for Portenmouth, Bonanza for Pomeroy and Virginia for Pittsburgh to-night. Down, the Indiana.

Nabisco sugar wafers—Calhoun's.

Master Boyd Aikman is quite ill at the home of his parents on Lee street.

Sixteen Republicans attended the convention at Mt. Olivet last Saturday.

Mrs. John R. Downing, of the county, who has been ill several weeks, is now improving.

Robert Collins, born in Zanesville eighty years ago, died of paralysis Sunday night at Manchester.

Dr. A. Wilkes Smith, District Deputy Grand Exalted Ruler, B. P. O. Elks, died at his home in Richmond, Sunday.

Mr. and Mrs. William Lalley are entertaining a young daughter at their home in Mayslick—Margaret May.

Mr. W. H. Frederick has completed an improvement to the home of Mrs. Annie Wilson, of Mayslick, in the shape of a very handsome veranda.

The employees of the Ashland Sheet Mill Company, numbering nearly 200, who are members of the Amalgamated Union of Iron Workers, refused to go to work Monday owing to the President, L. A. Kelly, refusing to sign the scale.

In the line of diamonds, watches and fine sterling silver we are showing the handsomest line to be found in the city. Our prices are lower than goods of similar quality can be bought for anywhere. Have a look. MURPHY, the Jeweler.

O. H. P. Thomas & Co., Nos. 120 and 122 Market street, Maysville, Ky., sell Old Time Bourbon and Maysville Club Rye, direct from the distillery, by the quart, gallon or barrel; the finest in the State; guaranteed pure and as represented as to age. TUE H. E. POGUE DISTILLERY CO.

Sherman Lewis, of Vanceburg, a survivor of the Spanish war, has been granted a pension of \$6 a month.

The Maysvilles will have the Manchester ball team here for a game Thursday afternoon at the Sixth ward park.

Refreshing showers fell last night. The early corn in this county is practically out of all danger now from drought. It will require another good rain or two to "make" the late corn.

Dr. Ozion P. Wilson, of Montgomery County, and Miss Ada Virginia McClung, eldest daughter of Rev. and Mrs. G. W. McClung, of the Grayson Circuit of the M. E. Church, South, were married Monday.

There is a bread war on in Lexington. Over 30,000 loaves of bread have been given away in that city by Louisville bakers in the last few weeks. It is estimated that in the same time about 100,000 loaves of bread have been given away in other parts of Kentucky.

The Cincinnati Enquirer says: "It is understood that Mr. Charles Poyntz has informed his friends that he will be a candidate for the Democratic nomination for Lieutenant Governor. Mr. Poyntz has traveled considerably over the State and is firmly of the opinion that Beckham will have no trouble in securing a renomination."

If you want to purchase the purest and best goods on earth go to G. W. Rogers & Co., 127 Market street, where you will find old Bourbon and rye whisky, apple and peach brandy, California brandy, malt gin, California port, sherry and Madera, K. I. sweet Catawba and dry Catawba wines &c. We guarantee all of our goods to be strictly pure.

The troubles of Editor Walton of the Lexington Democrat continue to multiply. Monday Mayor H. T. Duncan filed suit against the Democrat Company and Walton for the recovery of the sum \$10,000 for alleged libel. The cause of action is the publication of a letter purporting to have been written by one H. T. Palmer, and which appeared in the Democrat, headed "A Question for Duncan to Answer," and for the publication in the same issue of an editorial commenting on said letter, both of which are regarded as an imputation on Duncan.

The new boiler being put in at the cotton mill is the largest in Maysville. It is an upright, tubular of the latest design, with 300 horse power. The boiler is in position and is now being inclosed with fire brick, Mr. W. H. Frederick superintending the work. The claim is made for it that it will generate steam much more rapidly than the old style boiler.

MAYSVILLIAN'S INVENTION.

Messrs. Cummings and Wikoff Granted Patent For Adjustable Attachment For Railroad Water Tank.

Mr. Robert Cummings, of Huston street, and Mr. W. W. Wikoff, local agent of the C. and O., were granted a patent Monday for an adjustable attachment for a railroad water tank that will likely place them on Easy street at no distant day.

The attachment is the invention of Mr. Cummings, but Mr. Wikoff is the owner of a half interest in it.

Under the old arrangement of the tanks, an engine in taking water was compelled to stop with the tender immediately opposite the connecting or supply pipe. Frequently the engineer is compelled to move the train a few feet either forward or backward, losing valuable time.

Messrs. Cummings and Wikoff's adjustable attachment will enable the engine to take water if it stops within fifteen or twenty feet of the tank.

The various railroad systems will undoubtedly adopt this attachment at once, as its value over the old attachment is apparent at a glance.

Congressman Boreing denies the charges made by Colson, and says he does not fear an investigation before the people or in the courts.

Mr. Robert D. Stockton, of Denver, sends the BULLETIN a handsome souvenir of the Navarre Cafe, of which he is senior proprietor, the firm being Stockton & Ray. Bob always had an eye for the beautiful, and the pretty illustrations, gems of the engraver's art, displayed in the souvenir show that the Colorado atmosphere has not yet dimmed his vision.

The new boiler being put in at the cotton mill is the largest in Maysville. It is an upright, tubular of the latest design, with 300 horse power. The boiler is in position and is now being inclosed with fire brick, Mr. W. H. Frederick superintending the work. The claim is made for it that it will generate steam much more rapidly than the old style boiler.
